6. PROSAC discussion of public private partnerships for open spaces and parks: Discussion and Possible Action (Linda D'Avirro)

Shall it be the policy of the members of PROSAC that PROSAC shall be concerned with, and shall urge, the Recreation and Parks Commission to address the need for, and require developments to provide, increased ground level open space that is usable park space not only hardscape, and that these new ground level public park spaces in developments be coordinated with advice and input from the Recreation and Parks Department?
