## Permits and Reservations at Parks and Facilities

### I. Community Meetings, Community Events and Protests

#### A. Community Meeting Space

- a. Each of our facilities can have up to four Community Meetings per month for no fee (except staff fees if it is during a time the facility is closed).
- b. Meetings must be open to all and focus on serving the community and not commercial businesses

#### B. Community Events- Special Events

- a. The Department will co-sponsor community events in parks or at our facilities. Total waived fees cannot exceed \$616.
- b. There can be no vendor sales, alcohol sales or food sales (so no commercial benefits). The only exception is t-shirts related to the event and a nominal fee for food.
- c. We do a variety of these throughout the city each year
- d. The Department must be recognized as a co-sponsor.

#### C. Protests/Rallies

- a. Under free speech guidelines – protests and rallies have the right to use our facilities for no fees. However, we do ask for reimbursement of our out of pocket expenses (custodial, park patrol)
- b. There can be no vendor sales, alcohol sales or food sales (so no commercial benefits)
- c. It is subject to availability of the facility and rules on amplified sound
- d. No music events

#### D. Sponsorship by Government Officials or Other City Agencies

- a. Event promoters ask government officials or other city agencies to sponsor their events as a way to reducing their fees. This is not allowed. However, you can help them through the process by contacting us.

### II. Balance Use of Our Facilities

One of the trickiest parts of what we do is balancing use and different needs. In order to address these issues we have implemented a number of policies and steps:

- **Organized Review of Applications and Calendar:** We try to get a big picture of all uses by looking at them together and the overall impact. So for instance in high demand parks we look at all applications together policies to ensure that there are not too many events and that there is time between them.
- **Residents First:** We try to make our facilities available to our residents.
- **Balance of Use:** We try to ensure that a variety of different users obtain access to our facilities reflecting the broad diversity of San Francisco

The largest issues that we see are the following:

- A. Impacts of Events on Neighbors and Passive Recreation:** We do our best to balance the desire for the city to have events in our parks and the impact of those events on neighbors and passive recreation. Working with active park groups, we try to achieve that balance. However, we have some neighbors who view their park as their backyard and would prefer no picnics or other users. This balance is hard and we are always happy to discuss as we want to ensure that we are striking the correct balance.
- B. Athletic Fields:** We have a severe shortage of athletic fields in the city. We have implemented a number of changes to ensure that our fields are used by our residents and kids of all athletic abilities. We never want to turn away a child. In addition, we have been able to ensure access to adults and young adults in the city at nights and on Sundays. 90% of the users have supported the changes that we have made. However, there are a few groups that prefer the old way when historic users had preference even if they were not serving residents. In addition, we have a handful of soccer parents that believe that the focus should be more on the elite players at the expense of all kids.
- C. Fees for Neighborhood Use of our Facilities:** We want to ensure that community groups can use our facilities. We have addressed this by the policy described in I above. However, there are still groups that feel that their fees should be waived. Usually it is because they want to sell merchandise at events making them ineligible for fee reductions
