MOUNTAIN LAKE PARK RESTROOM

The restroom building at Mt. Lake Park is slated for replacement with a new restroom building that is designed for wheelchair accessibility and improves park maintenance operations. As the drawings of the future restroom building to the right show, the new restroom building will also include a garage, a staff office, drinking fountains, and bottle filler. The par course station to the south of the building will be relocated nearby.

The total duration for this contract is 5 months. However inclement weather may extend this construction period.

This project is being made possible through the 2008 Clean and Safe Neighborhood Parks Bond, which was approved by 71% of voters.

The Recreation and Park Department apologizes for the inconvenience during this time. If you would like more information, please contact:
