GOLDEN GATE PARK - BOAT PLAYGROUND RESTROOM
@ 45TH AVE. & LINCOLN WAY

CIVIC DESIGN REVIEW | CONCEPTUAL
APRIL 18, 2016

PROJECT NEED

The Boat Playground at 45th Avenue and Lincoln is a heavily visited park attraction for families in the Outer Sunset area. There are currently no restrooms in the vicinity of this recreation area. In the absence of a restroom, both children and adults end up using the bushes and trees for relief. This situation creates for an uncomfortable, unsanitary and unsafe condition for these park visitors.

PRIMARY PROJECT GOALS

- Provide a clean and safe restroom facility for playground and park visitors
- Provide a restroom that integrates into the Park's landscape setting (location and aesthetics)
- Screen the restroom from the Lincoln Street frontage
- Make the facility ADA compliant

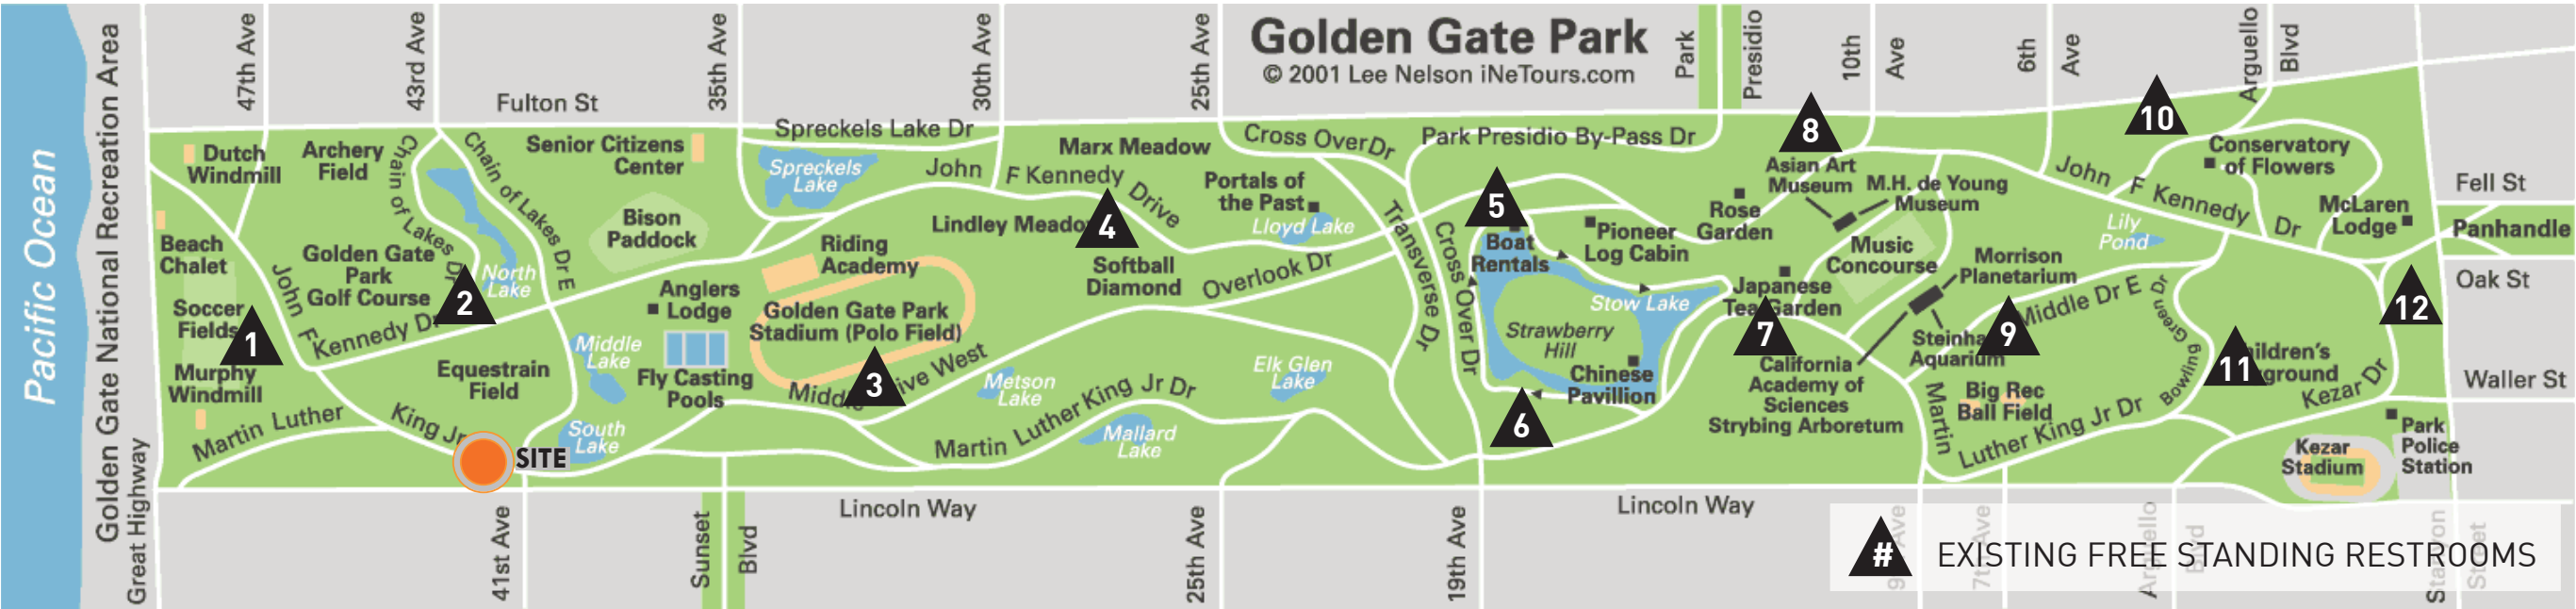

PROJECT SUPPORTERS

- The 45th Avenue Neighborhood SAFE Association (Project Sponsor)
- Neighbors and Organizations in The Outer Sunset (in excess of 800)
- Supervisor Katy Tang

SITE - EXISTING CONDITIONS

DESIGN FEATURES

- 1. The Restroom design is consistent with the restroom typology used in Golden Gate Park for easy restroom identification
- 2. Use of natural light & ventilation
- 3.- Use of warm, traditional materials in harmonic composition
- 4. Accent wall tiles near restroom entry use a blue palette inspired by the playground boat.

SITE IMPROVEMENTS

- * PATH: ADA Access
- * RETAINING WALL: ADA Access
- * NATIVE PLANTING: Groundcover, shrubs and trees
