Project Progress - as of 8/21

- Construction is currently focused on specialized sewer work, surface demolition, and careful investigations to locate and protect existing utilities. The project team has completed the second of three 48-hour sewer lining operations, where a liner is placed inside the existing sewer to strengthen it.
- The third and final sewer lining operation is planned for **August 27-29** at the north end of Buchanan Street Mall
- The contractor has begun the drilling work for pedestrian light poles and fence posts.
