

A. ACKNOWLEDGMENTS AND LIST OF INVOLVED PARTIES

As with many projects of this magnitude, this document reflects the efforts of a vast number of people. This includes those staff at EIP who started the project (Carolyn Shoulders, Lee Ellis, Richard Nichols, and Liz Haines) but left to pursue other interests. It includes the Natural Areas Program staff who spend their work days at these different locations (Christopher Campbell, Randy Zebell, Dillon Hayes, Suzanna Buehl, Licia DeMeo, Carolyn Gates, John Campo, Tom Anesse, Colette Todorov, etc.) and were able to draw an 'x' on a map so the data could be processed into the GIS. It includes all of the volunteers who spent time assisting with the data collection and those who have spent their Saturdays pulling weeds and planting native vegetation. Special recognition must go to Debra Dwyer at San Francisco State University who spent many weekends and nights responding to requests for revisions to the vast array of figures within this document. The following list includes the people who have made this document come together, and their primary roles.

San Francisco Recreation and Parks Department - Natural Areas Program

Lisa Wayne - Director, Project Manager

EIP Associates

Demian Ebert – Project Manager and Primary Author

George Burwasser – Geology, Hydrology

Merril Morris Partners

Cathy Merrill - Public Use, Public Draft Executive Summary

Erin Michael - Public Draft Executive Summary

GeoTopo Inc.

Barry Pierce – Topography, GPS/GIS, Data Management

BIRC., Inc.

Sheila Daar - Integrated Pest Management

San Francisco State University

Mike Vasey - SFSU Project Coordinator

Debra Dwyer - GIS Technician

Jerry Davis – GIS Project Manager

Barbara Holzman – Land Use and Planning, Land Use Histories

San Jose State University

Will Russell – Monitoring Program

Scientific Advisory Board

Ed Connor - San Francisco State University
Wayne Ferren - University of California, Santa Barbara
John Hafernik - San Francisco State University
Tyson Holmes – Ecological Monitoring
Peter Kareiva - University of Washington
Jennifer Knauer - Recreation Ecology
V. Thomas Parker - San Francisco State University
Eric Routman - San Francisco State University
Christine Schonewald - University of California, Davis

Interns

Melanie Paquin - Vertebrate Sampling
Craig Reading - Vertebrate Sampling
Candace Low - Invertebrate Sampling
Christiana Conser - Invertebrate Sampling
Christy Camp - Land Use History
Raphael Breines - Property Boundaries; IPM
Tammy McDaniel – Historic Flora

Scientific Review

Lynn Huntsinger, Ph.D. – University of California, Berkeley
James W. Bartolome - University of California, Berkeley
Roy A. Woodward, Ph.D. – California State Parks, Sacramento
Peggy L. Fiedler, Ph.D. – BBL Sciences/Ecosystem Science & Restoration Services

Final Proofread and File Preparation
