3. San Francisco Zoo Administrative Report.  (Discussion)
Tanya Peterson, Executive Director, SFZS

Ms. Peterson will give updates on administrative and departmental operations.
Visitor attendance through January was 505911 versus projection of 497,000 leaving a favorable attendance of 8911. February attendance with attendance to date for the month is 44,220 versus budget of 54,000 which is under by 9,780. For the month of February SFZS is offering “Senior Sweetheart Special” two-for-one admission for ages 65 and over for the whole month. The Zoo has received a male Andean condor with a recommendation to breed with the Zoo’s female “Callista”. The male has been named “Allan” after long-time volunteer And Zoo supporter Allan Ridley. Allan has been a Koret Animal Resource Center volunteer since 2002, a docent since 2012 and a docent and worked as a Zoomobile volunteer for over ten years. He was the 2010 recipient of the “Good Egg”. “Allan” and “Callista” are getting to know each other off exhibit where their interaction can be monitored by animal staff. President Day is this weekend and the Zoo will be open rain or shine and the first 100 people will receive a free poncho. SFZ will be celebrating International Polar Bear Day the weekend of February 25 & 26. SFZ is partnering with the Randall Museum for the SF for the SF Middle School Science Fair. There will be 150 submissions. Nature Trail is about to begin. Students between the ages of 12-14 can volunteer to participate in this program. Nature Trail volunteers learn to handle small animals and teach natural history and conservation to San Francisco visitors. Students work two days per week for the duration of the summer.

6. **Coastal Conservation Center** (Discussion)
   Mark Miller, CEO, MKThink
   Miller presented a concept from SFZ for a coastal Conservation and Education Center. The concept is part of a larger intention to advance the Zoo’s mission of Care, Connect and Conserve realized through the transformation of critical animal habitats into Global Biodiversity Hotspots. A Coastal Conservation Zone at SFZ could encompass as much as 30 acres along the western portion of the site. In this vision, features would include Coastal Conservation and Education Center, NorCal dune animal, flora and fauna conservation habitat and an Arctic tundra Habitat including a Polar Bear conservation site and animal migration paths to provide an enriched animal and visitor experience. To make this happen, the parking and entries would need to “retreat” from the ocean front by the natural habitats. The project would occur within the boundaries of the Fleishhaker Pool House and entirely with the Zoo boundaries, as per the City of San Francisco’s Assessor map, 1995 version. The Conservation an Education Center is an ambitious and long term project. The Zoo seeks to commence this expression of its mission sooner. The intent is to initiate this vision through a “Seed” project that could be in place for this summer. The Seed would entail simply creating visual access to the coast by placing a deck for Citizen Science on the site of the former Fleishhaker Pool house. The deck would be sized to support a full class of SF students and consist of a weather station, sun and wind shading, technology equipment storage container. Solar and possible wind power collection and generation. The deck would be accessible from a gradual pathway suitable with support features at the base of the dunes. The Citizen Science capability would support Zoo Camp Winter, Spring and Summer programs. Its safe and managed access to the coast is particularly accommodating for Little Learners as well as special programs such as close encounters such as the Zoo Mobile, Scout Programs as well as special enrichment led by Zoo Docents and Teen Interpreters. These programs could start as soon as the deck, equipment and support containers are placed.
